New bar cutting, Brisbane river.

No. 421 (*first publication*).—The Portmaster, Brisbane, has given Notice (No. 8 of 1912) that on and after 1st October 1912, the dredged cutting giving entrance to the Brisbane River hitherto will be abandoned, and the new cutting will be open to use. This new cutting is on the same alignment as the cutting from the West Beacon inwards past Luggage Point. Its bearing is 8. 23° W. magnetic.

The new cutting has a bottom width of 400 feet and a net depth of 24 feet at low-water springs.

It will be marked by five red triangular beacons to starboard and five square black beacons to port when entering; the outermost beacons are on a depth of 9 feet at low water, and all beacons are 150 feet off the edge of the cutting. The marks to indicate the centre line will be two lighthouses on Bulwer Island, transferred from Fisherman Islands. By night a white light will be shown from the back tower and a red light from the front or nearer tower, these lights being the same as those marking the present entrance cutting. In addition the small floating white light now marking the outer end of the present cutting will be transferred to mark the outer end of the new cutting, and will be moored on the west side thereof in a depth of 24 feet at low water, distant 450 feet from the line of lights. It will bear N. 72° E., distant 1½ miles from the Pile Lighthouse.

The main light and the tidal signals shown from the Pile Lighthouse will be continued as hitherto until the new Pile Lighthouse is erected, of which due notice will be given.

The small white light shown from the west beacon will be discontinued.

DIRECTIONS.

By Day.—Vessels from seaward will steer for the Pile Lighthouse as hitherto until the floating lightboat is plainly visible, when a course is to be steered to pass 450 feet to eastward of it, bringing the two lighthouses on Bulwer Island bearing S. 23° W. in line ahead. Keep them so passing six red beacons to starboard, including the present west beacon, and five black beacons to port, after which continue on the same line until past Luggage Point and the floating lightboat is neared, when proceed as before.

By Night.—Vessels from seaward will steer for the Pile Light as hitherto until the small floating white light at the outer end of the cutting is visible, when steer to pass it on the starboard hand 450 feet distant, and bring the red and white lights on Bulwer Island bearing S. 23° W. in line ahead. Keep them so passing Luggage Point until the small floating light marking the turn into the Pelican Bank Cutting is approached, when proceed as before.

The New Pile Light will bear N. 62½° E., distant 13,800 feet from the existing Pile Light, and will be 450 feet to the eastward of the line of marks for the new cutting, in a depth of 30 feet at L.W.S.

During erection wooden piles will be driven, from which at night two green lights vertical will be exhibited.

New bar cutting, Brisbane river.

No. 421 (*second publication*).—The Portmaster, Brisbane, has given Notice (No. 8 of 1912) that on and after 1st October 1912, the dredged cutting giving entrance to the Brisbane River hitherto will be abandoned, and the new cutting will be open to use. This new cutting is on the same alignment as the cutting from the West Beacon inwards past Luggage Point. Its bearing is S. 23° W. magnetic.

The new cutting has a bottom width of 400 feet and a net depth of 24 feet at low-water springs.

It will be marked by five red triangular beacons to starboard and five square black beacons to port when entering; the outermost beacons are on a depth of 9 feet at low water, and all beacons are 150 feet off the edge of the cutting. The marks to indicate the centre line will be two lighthouses on Bulwer Island, transferred from Fisherman Islands. By night a white light will be shown from the back tower and a red light from the front or nearer tower, these lights being the same as those marking the present entrance cutting. In addition the small floating white light now marking the outer end of the present cutting will be transferred to mark the outer end of the new cutting, and will be moored on the west side thereof in a depth of 24 feet at low water, distant 450 feet from the line of lights. It will bear N. 72° E., distant 1½ miles from the Pile Lighthouse.

The main light and the tidal signals shown from the Pile Lighthouse will be continued as hitherto until the new Pile Lighthouse is erected, of which due notice will be given.

The small white light shown from the west beacon will be discontinued

DIRECTIONS.

By Day.—Vessels from seaward will steer for the Pile Lighthouse as hitherto until the floating lightboat is plainly visible, when a course is to be steered to pass 450 feet to eastward of it, bringing the two lighthouses on Bulwer Island bearing S. 23° W. in line ahead. Keep them so passing six red beacons to starboard, including the present west beacon, and five black beacons to port, after which continue on the same line until past Luggage Point and the floating lightboat is neared, when proceed as before.

By Night.—Vessels from seaward will steer for the Pile Light as hitherto until the small floating white light at the outer end of the cutting is visible, when steer to pass it on the starboard hand 450 feet distant, and bring the red and white lights on Bulwer Island bearing S. 23° W. in line ahead. Keep them so passing Luggage Point until the small floating light marking the turn into the Pelican Bank Cutting is approached, when proceed as before.

The New Pile Light will bear N. 62½° E., distant 13,800 feet from the existing Pile Light, and will be 450 feet to the eastward of the line of marks for the new cutting, in a depth of 30 feet at L.W.S.

During erection wooden piles will be driven, from which at night two green lights vertical will be exhibited.

New bar cutting, Brisbane river.

No. 421 (*third publication*).—The Portmaster, Brisbane, has given Notice (No. 8 of 1912) that on and after 1st October 1912, the dredged cutting giving entrance to the Brisbane River hitherto will be abandoned, and the new cutting will be open to use. This new cutting is on the same alignment as the cutting from the West Beacon inwards past Luggage Point. Its bearing is S. 23° W. magnetic.

The new cutting has a bottom width of 400 feet and a net depth of 24 feet at low-water springs.

It will be marked by five red triangular beacons to starboard and five square black beacons to port when entering; the outermost beacons are on a depth of 9 feet at low water, and all beacons are 150 feet off the edge of the cutting. The marks to indicate the centre line will be two lighthouses on Bulwer Island, transferred from Fisherman Islands. By night a white light will be shown from the back tower and a red light from the front or nearer tower, these lights being the same as those marking the present entrance cutting. In addition the small floating white light now marking the outer end of the present cutting will be transferred to mark the outer end of the new cutting, and will be moored on the west side thereof in a depth of 24 feet at low water, distant 450 feet from the line of lights. It will bear N. 72° E., distant 1½ miles from the Pile Lighthouse.

The main light and the tidal signals shown from the Pile Lighthouse will be continued as hitherto until the new Pile Lighthouse is erected, of which due notice will be given.

The small white light shown from the west beacon will be discontinued.

DIRECTIONS.

By Day.—Vessels from seaward will steer for the Pile Lighthouse as hitherto until the floating lightboat is plainly visible, when a course is to be steered to pass 450 feet to eastward of it, bringing the two lighthouses on Bulwer Island bearing S. 23° W. in line ahead. Keep them so passing six red beacons to starboard, including the present west beacon, and five black beacons to port, after which continue on the same line until past Luggage Point and the floating lightboat is neared, when proceed as before.

By Night.—Vessels from seaward will steer for the Pile Light as hitherto until the small floating white light at the outer end of the cutting is visible, when steer to pass it on the starboard hand 450 feet distant, and bring the red and white lights on Bulwer Island bearing S. 23° W. in line ahead. Keep them so passing Luggage Point until the small floating light marking the turn into the Pelican Bank Cutting is approached, when proceed as before.

The New Pile Light will bear N. 62½° E., distant 13,800 feet from the existing Pile Light, and will be 450 feet to the eastward of the line of marks for the new cutting, in a depth of 30 feet at L.W.S.

During erection wooden piles will be driven, from which at night two green lights vertical will be exhibited.

No. 465 (*first publication*).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notices to Mariners (No. 197M of 1912), are republished:—

Subject.—As the sand bank at the bar is tending to increase towards the south thus approaching the sailing line through the Malim Campal marks, Mariners are advised that though there is the same depth of water as before (minimum 11' in low tide) on this line, it is prudent to enter with the marks a little open, thus keeping the light at Malim to the south of that at the Campal. In order to obtain greater depth (minimum 12' in low tide) the Malim light should bear between the two pillars painted white which are on the margin of the circular terrace where Banastarin gun is and which is about 30 meters to the south of the Campal Light. If the Malim Campal sailing mark is to be followed, it is necessary to prevent a vessel yawing to port or the north side.

At night it will suffice to keep the red lights a little open, keeping the higher one Malim a little to the north of the other.

AUSTRALIAN PORTS.

Caution when approaching Australian ports.

No. 470 (first publication).—The Portmaster, Brisbane, has given Notice (No. 10 of 1912) as follows:—

In connection with periodical exercises or manœuvres, or in the event of relations becoming strained between Great Britain and any Naval Power, an Examination Service may come into force at the ports or localities mentioned at the end of this notice.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog, they should on no account attempt to enter before receiving permission from the Examination Officer.

The institution of an Examination Service at any port will never be publicly advertised, but at all times when the relations of Great Britain with foreign powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night, to keep a sharp look-out for the Examination Steamer, and to be ready to "Bring to" at once when hailed by her or warned by the firing of a gun.

If the entrance to a port is closed, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

If the Examination Service is in force the Examination Steamer will be distinguished at night—

(a) When the port is closed, by three red vertical lights.

(b) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed.

The Astronomical positions are only approximate unless seconds are given. The bearings are given both True and Magnetic.

No. 465 (*second publication*).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 197M of 1912), are republished :—

Subject.—As the sand bank at the bar is tending to increase towards the south thus approaching the sailing line through the Malim Campal marks, Mariners are advised that though there is the same depth of water as before (minimum 11' in low tide) on this line, it is prudent to enter with the marks a little open, thus keeping the light at Malim to the south of that at the Campal. In order to obtain greater depth (minimum 12' in low tide) the Malim light should bear between the two pillars painted white which are on the margin of the circular terrace where Banastarim gun is and which is about 30 meters to the south of the Campal Light. If the Malim Campal sailing mark is to be followed, it is necessary to prevent a vessel yawing to port or the north side.

At night it will suffice to keep the red lights a little open, keeping the higher one Malim a little to the north of the other.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog, they should on no account attempt to enter before receiving permission from the Examination Officer.

The institution of an Examination Service at any port will never be publicly advertised, but at all times when the relations of Great Britain with foreign powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night, to keep a sharp look-out for the Examination Steamer, and to be ready to “Bring to” at once when hailed by her or warned by the firing of a gun.

If the entrance to a port is closed, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

If the Examination Service is in force the Examination Steamer will be distinguished at night—

(a) When the port is closed, by three red vertical lights.

(b) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed.

The Astronomical positions are only approximate unless seconds are given. The bearings are given both True and Magnetic.

Signals to be made by vessels approaching defended ports when inconvenienced by searchlights.

No. 496 (*first publication*).—Any vessel approaching a defended port in British India when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

- (a) By flashing lamp, four short flashes followed by one long flash.
- (b) By whistle, Siren, or fog-horn, four short blasts followed by one long blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of a searchlight it is impossible to know which searchlight is affected.

Note.

These signals, which will come into force on the 15th October 1912, are designed to assist Mariners and do not render the Government liable in any way.

No. 465 (third publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 197M of 1912), are republished:—

Subject.—As the sand bank at the bar is tending to increase towards the south thus approaching the sailing line through the Malim Campal marks, Mariners are advised that though there is the same depth of water as before (minimum 11' in low tide) on this line, it is prudent to enter with the marks a little open, thus keeping the light at Malim to the south of that at the Campal. In order to obtain greater depth (minimum 12' in low tide) the Malim light should bear between the two pillars painted white which are on the margin of the circular terrace where Banastarim gun is and which is about 30 meters to the south of the Campal Light. If the Malim Campal sailing mark is to be followed, it is necessary to prevent a vessel yawing to port or the north side.

At night it will suffice to keep the red lights a little open, keeping the higher one Malim a little to the north of the other.

AUSTRALIAN PORTS.

Caution when approaching Australian ports.

No. 470 (third publication).—The Portmaster, Brisbane, has given Notice (No. 10 of 1912) as follows:—

In connection with periodical exercises or manoeuvres, or in the event of relations becoming strained between Great Britain and any Naval Power, an Examination Service may come into force at the ports or localities mentioned at the end of this notice.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog, they should on no account attempt to enter before receiving permission from the Examination Officer.

The institution of an Examination Service at any port will never be publicly advertised, but at all times when the relations of Great Britain with foreign powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night, to keep a sharp look-out for the Examination Steamer, and to be ready to "Bring to" at once when hailed by her or warned by the firing of a gun.

If the entrance to a port is closed, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

If the Examination Service is in force the Examination Steamer will be distinguished at night—

(a) When the port is closed, by three red vertical lights.

(b) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed.

The Astronomical positions are only approximate unless seconds are given. The bearings are given both True and Magnetic.

Signals to be made by vessels approaching defended ports when inconvenienced by searchlights.

No. 496 (second publication).—Any vessel approaching a defended port in British India when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(a) By flashing lamp, four short flashes followed by one long flash.

(b) By whistle, siren, or fog-horn, four short blasts followed by one long blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of a searchlight it is impossible to know which searchlight is affected.

Signals to be made by vessels approaching defended ports when inconvenienced by searchlights.

No. 496 (*third publication*).—Any vessel approaching a defended port in British India when searchlights are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(a) By flashing lamp, four short flashes followed by one long flash.

(b) By whistle, Siren, or fog-horn, four short blasts followed by one long blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked so as to cause the least inconvenience, being either doused, raised, or their direction altered.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of a searchlight it is impossible to know which searchlight is affected.

Note.

These signals, which will come into force on the 15th October 1912, are designed to assist Mariners and do not render the Government liable in any way.

Authority.—Government of India.

Simons bay—Regulations for Dockyard port.

No. 568 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1439 of 1912), are republished:—

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL has been pleased, under section *four* of the Simons Bay Dockyard Port Regulation Statutes, 1898-1912, to make the following regulations and to

cancel those published in the *Gazette* of the Colony of the Cape of Good Hope under Government Notice No. 732, dated 11th September 1899:—

1. The area of the Dockyard Port as defined by the statutes above mentioned is included within the following boundaries:—

On the east so much as is comprised within a line drawn due south (true) from the Phoenix Buoy to the shore, meeting a line drawn north 32° west (true) from the Phoenix Buoy to the shore on the south of Elsey Bay; on the north-west, west, and south, the line of highwater-mark of spring tides between the points where the above defined lines meet the shore, with all bays, creeks, lakes, pools, and rivers as far as the tide flows, which boundaries are delineated on a plan filed in the office of the Surveyor-General marked 2,554 MM.

2. No vessel shall moor or anchor so as to obstruct navigation in or out of the Dockyard Port.

3. The Senior Naval Officer shall have exclusive right to lay down moorings within the area of the Dockyard Port. Merchant ships must anchor only in berths assigned to them by the Senior Naval Officer, or his representative. Freedom of access will be given at all times when the space is not required for His Majesty's ships and vessels.

4. No gunpowder or other explosive shall be allowed on board merchant vessels without the written permission of the Senior Naval Officer, and no merchant vessel shall be allowed to discharge loaded ordnance within the whole area of the Dockyard Port as laid down in section *one* of the "Simons Bay Dockyard Port Regulation Statutes, 1898-1912." The loading or unloading of gunpowder or other explosives shall be regulated by the Senior Naval Officer.

5. No merchant vessel shall be permitted to have on board any quantity of tar, oil, or other combustible substances beyond such as may be required for her general use within the limits of the Dockyard Port without the permission of the Senior Naval Officer.

6. The Senior Naval Officer is authorized from time to time, where the Naval Service requires it, to limit the speed of steam vessels to a speed not to exceed four knots per hour within the limit of the Dockyard Port, as laid down in section *one* of the Act above quoted.

7. Every merchant vessel of and above 150 tons anchored or moored within the Dockyard Port shall have on board at least one person at all hours of the day and night.

8. If at any time the anchor of any merchant or other private vessel hooks any Government moorings, or any electric cables, or moorings of buoys, the master or other person having the charge or command of such vessel shall not proceed to unhook the same, but shall forthwith give notice thereof to the Senior Naval Officer in order that aid may be given for clearing such moorings or cables without doing damage to the same.

9. No merchant or other private vessel or boat shall, without license in writing from the Senior Naval Officer, be moored or fastened to any Government moorings, buoys, piles, or vessels in the Dockyard Port.

10. No ballast, stones, earth, clay, refuse, ashes, rubbish, dust, filth of any description, and no refuse from any quarry, mine, or pit shall be unladen, cast, or allowed to fall into the waters of the Dockyard Port, except in such places as are appointed by the Senior Naval Officer, or into or upon the banks, or any portion of the shore of the said Dockyard Port, or into or upon the shores of any rivers or streams discharging into the said Dockyard Port where the same may be liable to be washed into the waters of the Dockyard Port by rain, tide, or otherwise.

11. Nothing, however, in the foregoing provision shall be deemed to exclude such vessels as require admission to the town pier for loading and unloading cargoes; and all such vessels shall continue to enjoy their accustomed privileges in this respect as fully as if these regulations had not been made, provided they do not impede or interfere with the navigation of His Majesty's vessels.

12. The master of every vessel to which these regulations relate shall observe and cause them to be observed so far as they relate to his vessel, and if any master or other person acts in any respect in contravention of any of these regulations, or fails to observe or cause to be observed, in any respect, any of them, he shall be liable on conviction to a penalty not exceeding ten

Simons bay—Regulations for Dockyard port.

No. 568 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1439 of 1912), are republished :—

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL has been pleased, under section *four* of the Simons Bay Dockyard Port Regulation Statutes, 1898-1912, to make the following regulations and to

cancel those published in the *Gazette* of the Colony of the Cape of Good Hope under Government Notice No. 732, dated 11th September 1899:—

1. The area of the Dockyard Port as defined by the statutes above mentioned is included within the following boundaries:—

On the east so much as is comprised within a line drawn due south (true) from the Phoenix Buoy to the shore, meeting a line drawn north 32° west (true) from the Phoenix Buoy to the shore on the south of Elsey Bay; on the north-west, west, and south, the line of highwater-mark of spring tides between the points where the above defined lines meet the shore, with all bays, creeks, lakes, pools, and rivers as far as the tide flows, which boundaries are delineated on a plan filed in the office of the Surveyor-General, marked 2551 MM.

2. No vessel shall moor or anchor so as to obstruct navigation in or out of the Dockyard Port.

3. The Senior Naval Officer shall have exclusive right to lay down moorings within the area of the Dockyard Port. Merchant ships must anchor only in berths assigned to them by the Senior Naval Officer, or his representative. Freedom of access will be given at all times when the space is not required for His Majesty's ships and vessels.

4. No gunpowder or other explosive shall be allowed on board merchant vessels without the written permission of the Senior Naval Officer, and no merchant vessel shall be allowed to discharge loaded ordnance within the whole area of the Dockyard Port as laid down in section *one* of the "Simons Bay Dockyard Port Regulation Statutes, 1898-1912." The loading or unloading of gunpowder or other explosives shall be regulated by the Senior Naval Officer.

5. No merchant vessel shall be permitted to have on board any quantity of tar, oil, or other combustible substances beyond such as may be required for her general use within the limits of the Dockyard Port without the permission of the Senior Naval Officer.

6. The Senior Naval Officer is authorized from time to time, where the Naval Service requires it, to limit the speed of steam vessels to a speed not to exceed four knots per hour within the limit of the Dockyard Port, as laid down in section *one* of the Act above quoted.

7. Every merchant vessel of and above 150 tons anchored or moored within the Dockyard Port shall have on board at least one person at all hours of the day and night.

8. If at any time the anchor of any merchant or other private vessel hooks any Government moorings, or any electric cables, or moorings of buoys, the master or other person having the charge or command of such vessel shall not proceed to unhook the same, but shall forthwith give notice thereof to the Senior Naval Officer in order that aid may be given for clearing such moorings or cables without doing damage to the same.

9. No merchant or other private vessel or boat shall, without license in writing from the Senior Naval Officer, be moored or fastened to any Government moorings, buoys, piles, or vessels in the Dockyard Port.

10. No ballast, stones, earth, clay, refuse, ashes, rubbish, dust, filth of any description, and no refuse from any quarry, mine, or pit shall be unladen, cast, or allowed to fall into the waters of the Dockyard Port, except in such places as are appointed by the Senior Naval Officer, or into or upon the banks, or any portion of the shore of the said Dockyard Port, or into or upon the shores of any rivers or streams discharging into the said Dockyard Port where the same may be liable to be washed into the waters of the Dockyard Port by rain, tide, or otherwise.

11. Nothing, however, in the foregoing provision shall be deemed to exclude such vessels as require admission to the town pier for loading and unloading cargoes; and all such vessels shall continue to enjoy their accustomed privileges in this respect as fully as if these regulations had not been made, provided they do not impede or interfere with the navigation of His Majesty's vessels.

12. The master of every vessel to which these regulations relate shall observe and cause them to be observed so far as they relate to his vessel, and if any master or other person acts in any respect in contravention of any of these regulations, or fails to observe or cause to be observed, in any respect, any of them, he shall be liable on conviction to a penalty not exceeding ten

No. 568 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1439 of 1912), are republished:—

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL has been pleased, under section *four* of the Simons Bay Dockyard Port Regulation Statutes, 1898-1912, to make the following regulations and to

cancel those published in the *Gazette* of the Colony of the Cape of Good Hope under Government Notice No. 732, dated 11th September 1899 :—

1. The area of the Dockyard Port as defined by the statutes above mentioned is included within the following boundaries :—

On the east so much as is comprised within a line drawn due south (true) from the Phoenix Buoy to the shore, meeting a line drawn north 32° west (true) from the Phoenix Buoy to the shore on the south of Elsey Bay; on the north-west, west, and south, the line of highwater-mark of spring tides between the points where the above defined lines meet the shore, with all bays, creeks, lakes, pools, and rivers as far as the tide flows, which boundaries are delineated on a plan filed in the office of the Surveyor-General, marked 2,554 MM.

2. No vessel shall moor or anchor so as to obstruct navigation in or out of the Dockyard Port.

3. The Senior Naval Officer shall have exclusive right to lay down moorings within the area of the Dockyard Port. Merchant ships must anchor only in berths assigned to them by the Senior Naval Officer or his representative. Freedom of access will be given at all times when the space is not required for His Majesty's ships and vessels.

4. No gunpowder or other explosive shall be allowed on board merchant vessels without the written permission of the Senior Naval Officer, and no merchant vessel shall be allowed to discharge loaded ordnance within the whole area of the Dockyard Port as laid down in section *one* of the "Simons Bay Dockyard Port Regulation Statutes, 1898-1912." The loading or unloading of gunpowder or other explosives shall be regulated by the Senior Naval Officer.

5. No merchant vessel shall be permitted to have on board any quantity of tar, oil, or other combustible substances beyond such as may be required for her general use within the limits of the Dockyard Port without the permission of the Senior Naval Officer.

6. The Senior Naval Officer is authorized from time to time, where the Naval Service requires it, to limit the speed of steam vessels to a speed not to exceed four knots per hour within the limit of the Dockyard Port, as laid down in section *one* of the Act above quoted.

7. Every merchant vessel of and above 150 tons anchored or moored within the Dockyard Port shall have on board at least one person at all hours of the day and night.

8. If at any time the anchor of any merchant or other private vessel hooks any Government moorings, or any electric cables, or moorings of buoys, the master or other person having the charge or command of such vessel shall not proceed to unhook the same, but shall forthwith give notice thereof to the Senior Naval Officer in order that aid may be given for clearing such moorings or cables without doing damage to the same.

9. No merchant or other private vessel or boat shall, without license in writing from the Senior Naval Officer, be moored or fastened to any Government moorings, buoys, piles, or vessels in the Dockyard Port.

10. No ballast, stones, earth, clay, refuse, ashes, rubbish, dust, filth of any description, and no refuse from any quarry, mine, or pit shall be unladen, cast, or allowed to fall into the waters of the Dockyard Port, except in such places as are appointed by the Senior Naval Officer, or into or upon the banks, or any portion of the shore of the said Dockyard Port, or into or upon the shores of any rivers or streams discharging into the said Dockyard Port where the same may be liable to be washed into the waters of the Dockyard Port by rain, tide, or otherwise.

11. Nothing, however, in the foregoing provision shall be deemed to exclude such vessels as require admission to the town pier for loading and unloading cargoes; and all such vessels shall continue to enjoy their accustomed privileges in this respect as fully as if these regulations had not been made, provided they do not impede or interfere with the navigation of His Majesty's vessels.

12. The master of every vessel to which these regulations relate shall observe and cause them to be observed so far as they relate to his vessel, and if any master or other person acts in any respect in contravention of any of these regulations, or fails to observe or cause to be observed, in any respect, any of them, he shall be liable on conviction to a penalty not exceeding ten

NOTIFICATION.

No. 2221 G.

Simla, the 23rd October 1912.

THE following communication, addressed by His Majesty's Secretary of State for Foreign Affairs to the Most Hon'ble the Marquis of Crewe, K.G., His Majesty's Secretary of State for India, is published for general information and guidance:—

His Majesty being fully determined to observe the duties of neutrality during the existing state of war between Turkey and Bulgaria, Turkey and Greece, Turkey and Montenegro, and Turkey and Serbia; and being moreover resolved to prevent, as far as possible, the use of His Majesty's harbours, ports, and coasts and the waters within His Majesty's territorial jurisdiction in aid of the warlike purposes of either belligerent, has commanded me to communicate to you, for your guidance, the following rules, which are to be treated and enforced as His Majesty's orders and directions:—

Rule 1.—During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of His Majesty's Colonies, or Foreign Possessions, or Dependencies, or of any waters subject to the territorial jurisdiction of the British Crown as a station or place of resort for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment. And no ship of war of either belligerent shall hereafter be permitted to leave any such port, roadstead or waters from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed,

until after the expiration of at least twenty-four hours from the departure of such last mentioned vessel beyond the territorial jurisdiction of His Majesty.

Rule 2.—If there is now in any such port, roadstead or waters, subject to the territorial jurisdiction of the British Crown, any ship of war of either belligerent, such ship of war shall leave such port, roadstead or waters within such time not less than twenty-four hours as shall be reasonable, having regard to all circumstances and the conditions of such ship as to repairs, provisions or things necessary for the subsistence of her crew. And if after the date hereof any ship of war of either belligerent shall enter any such port, roadstead or waters subject to the territorial jurisdiction of the British Crown, such ship shall depart and put to sea within twenty-four hours after her entrance into any such port, roadstead or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew or repairs, in either of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use, and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, provided nevertheless that in all cases in which there shall be any vessels (whether ships of war or merchant ships) of both the said belligerent parties in the same port, roadstead or waters within the territorial jurisdiction of His Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such vessel (whether a ship of war or merchantman) of the one belligerent and the subsequent departure therefrom of any ship of war of the other belligerent, and the time hereby limited for the departure of such ships of war respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

Rule 3.—No ship of war of either belligerent shall hereafter be permitted, while in any port, roadstead or waters subject to the territorial jurisdiction of His Majesty, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country or to some nearer named neutral destination, and no coal shall be again supplied to any such ship of war in the same or any other port, roadstead or waters subject to the territorial jurisdiction of His Majesty without special permission until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

Rule 4.—Armed ships of either belligerent are interdicted from carrying prizes made by them into the ports, harbours, roadsteads or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of His Majesty's Colonies or Possessions abroad.

The Governor or other chief authority of each of His Majesty's Territories or Possessions beyond the seas shall forthwith notify and publish the above rules.

The Governor-General in Council is pleased to direct that the orders and directions of His Majesty the King-Emperor of India, as contained in the above communication, are to be obeyed by all persons within the limits of His Majesty's Territories and Possessions in India.
